

FLOOD DETERMINATION CERTIFICATE

Our report indicated the property boundary at this address intersects a FEMA Special Flood Hazard Area (SFHA). To clarify whether the structure on the property is also in this flood zone, we are providing a FEMA Flood Hazard Determination ("flood certificate") at no additional charge on the following page(s).

FLOOD CERTIFICATE

If the flood certificate states "NO" in section "D. DETERMINATION"—indicating the structure is NOT IN the SFHA—this means that flood insurance is not required by the Flood Disaster Protection Act of 1973. You may use this flood certificate in conjunction with the NHD report as proof of this fact. (The Lender may separately require flood insurance to protect its collateral.)

If the flood certificate states "YES" in section "D. DETERMINATION"—indicating the structure IS IN the SFHA—this means that flood insurance is required by the Flood Disaster Protection Act of 1973 on a federally backed mortgage.

INSURANCE BENEFITS IN 'LOW-RISK' ZONES

The flood certificate may note that "the risk of flooding in this area is only reduced, not removed." Even though FEMA does not require flood insurance, it still may be a wise investment. In the lower-risk zones flood insurance is cheaper, yet FEMA notes that one-third of all flood claims paid last year were for policies in low-risk communities. FEMA adds that, on average, a home has a 26 percent chance of being damaged by a flood during the course of a 30-year mortgage, compared to a 9 percent chance of fire.
