

FROM US TO YOU

Eagles and moose and more... oh my! You'll enjoy all that and more with this lakefront home on Hidden Lake. The house has the distinct feeling of bringing the outside in due to the wall of windows sitting on a bluff high atop Hidden Lake.

That is the real heart of this place: an escape into the mountains and Mother Nature, combined with the comfortable coziness of a well-appointed home. Although we've used it in most recent years as a summer and fall getaway, we've also enjoyed many winters and springs. It's extraordinary no matter the season. For 24 years, we have enjoyed hiking, fishing, canoeing, and kayaking in and around the immediate area. Many mornings we are eye level with the mist and clouds that slowly float by the lake. Hummingbirds join us throughout the day as they perch at our feeder. Many evenings we're found on the deck, looking up at the stars that seem within reach and warmed by a small fire-pit.

That's when the bigger animals come out to drink and bathe lakeside, or to take in an evening walk. The sound of cars and city noise? Nowhere to be found. Blissful silence, save for the occasional bugling of an elk or the high-pitched wail from a moose. And when not enjoying the house or lake, it's a quick 15-minute drive to some of the most scenic trails, mountain streams, and snow-capped peaks in Colorado located at Brainard Lake. Skiing at Eldora is 25 minutes away in Nederland, and Estes Park's many attractions are 30 minutes out. But technology has found us at Hidden Lake, and we also enjoy high-speed internet and solid cell phone service too. This house and its unparalleled location simply cannot be replicated elsewhere and has provided us with nearly a quarter century of fresh mountain air, mindful tranquility, and abundant appreciation of the environment.
