Thinking of Selling?

Planning to sell your property in the next 12 months? Enhancing its appeal and potential selling price is easily achievable through minor renovations or refurbishments. From a fresh coat of paint and landscaping to updated flooring, cabinets, and light fixtures, these quick and simple home upgrades can make a significant impact.

However, it's important to avoid wasting money on improvements that won't truly enhance your sale price.

To assist you further, **I offer a complimentary 15-minute service to provide you with valuable advice.** Feel free to give me a call, as this information is completely free and comes with no obligation.

What's Involved?

When preparing to enter the market, it's important to be aware of various factors, particularly the financial aspects.

This includes considerations such as solicitor fees, moving costs, marketing expenses, fees, and commission.

Message from Leo Edwards

As the market continues to shift it's never been more important to work with an agent that will tell you the truth and market your property to an unmatched online audience to achieve the best market result.

There are currently large stock levels on the market accross the Bass Coast most of which have now been on the market for over 90 days! Some as long as 750 days! We're proud as an agency to have still maintained an average days on market of less than 60 while still driving excellent results for our sellers.

Accurate pricing of properties is more important than ever and while it's tempting to choose an agent that promises you the highest price, **ALWAYS** ask about their list price to sell price ratio. \$1,050,000 is currently the record by a local agent in 2024 for a reduction in the listed price to eventual sales price!

We've worked hard over the last six years to develop a system that eliminates the risk of overpricing or underselling your home, meaning better results in a shorter time with complete transparency.

Speak to us today for an honest opinion without the bull#@\$!
