A Warm, Inviting Home With Space to Live Beautifully!

This brick-front Melville model perfectly blends neo-traditional charm with modern comfort, set directly across from open green space and scenic walking trails in one of Clarksburg's most walkable neighborhoods. The main level showcases bamboo flooring with elegant picture-frame detailing and 9-foot ceilings, creating a bright, open flow ideal for entertaining or relaxing at home. The expanded kitchen features upgraded countertops, 42-inch cabinets, stainless steel appliances, a center island, and a spacious dining area. A convenient laundry room just off the kitchen adds to the home's thoughtful design. Upstairs, the spacious primary suite offers a soaking tub, separate shower, and walk-in closet. Each of the three bedrooms includes its own walk-in closet, and there are three full and one half baths throughout the home. The finished lower level adds approximately 500 square feet of flexible living space—perfect for a home gym, office, media room, or guest retreat—plus 548 square feet of storage and a full bath. Step outside to enjoy a low-maintenance composite deck leading to the detached two-car garage. With 2,096 finished square feet above grade and filled with natural light, this home offers more than space—it delivers a lifestyle of connection, convenience, and comfort, just moments from parks, shops, and Clarksburg's top-rated schools.
