Pest/Weed Activity Found -

Specialist Comments and Recommendations

Today, I provided a granular broadcast application of nutrients and weed control materials. This will enhance and maintain the color and growth of your lawn and greatly reduce the amount of new weeds. I also inspected and treated any existing broad leaf weeds, insects, and diseases as needed. This treatment will need to be irrigated with a 1/4" of water if rain does not occur within 24 hours of the treatment.
Thank you for choosing Massey Services!

Conditions, Avenues and Sources Identified as Potential Lawn Issues

Today's Inspection Identified

-Plants touching the structure, allows pest access

Location

Structure-Front

Activity Completed or Recommended

-Prune back plants away from structure
