THE CONTRACTOR

You are responsible for selecting a contractor to do the actual renovation work. It is suggested to get recommendations for a contractor and then price quotes either prior to or immediately after selecting a property.

In most states the contractor selected must be licensed and insured. The contractor you select must go through a validation process by CMG Home Loans' dedicated renovation team.

THE CONTRACTOR WILL PREPARE A WRITTEN WORK WRITE-UP REPORT FOR YOU

This Work Write-Up prepared by your contractor, includes detailed breakdowns of all desired and required renovation work and related cost estimates. You should make a list of all desired improvements before meeting with the consultant.

The Work Write-Up must be completed before ordering the appraisal, so the appraiser can establish the after-completed property value based on the work that will be done. This only applies to limited or streamline renovation projects which only need a detailed bid from your contractor.

SPECIFICATION OF REPAIR DOCUMENT

A detailed specification of repair document, which includes all a listing of all necessary materials, is required for all non-limited or streamlined renovation projects which will require a HUD consultant. It defines what is required to meet the customer's needs and program guidelines. It also provides an opportunity for the customer, contractor, appraiser, lender and HUD consultant to understand and agree on the scope of work. This document also ensures that all health and safety issues have been addressed and the allocated funds for renovations are sufficient to cover the required work for completion.

A Renovation Loan can be used to purchase or refinance a home that is in less-than-perfect condition, make immediate improvements, and pay for them over time.

RENOVATION FINANCING NEXT STEPS

READY TO RENOVATE!

APPRAISAL

Once the Work Write-Up of detailed Specification of Repair is completed and reviewed by the CMG renovation team, it will be sent to an appraiser to determine the after improvement value of the property.

FINAL APPROVAL

The CMG renovation team submits the Work Write-Up or detailed Specification of Repair and appraisal for final loan approval. Once the approval process is complete, and any outstanding conditions are met, the loan can proceed to closing.

LOAN CLOSING

The closing agent will have all required documents ready for you to review and sign, including the Closing Disclosure that details all costs of the transaction. A renovation escrow account will be set up to hold the funds to pay for work to be done. Funds disbursement "draws" are managed by the CMG renovation team. The same renovation specialists that you worked with before your loan closed will remain with you and your contractor after the loan closes.

HOW FUNDS ARE DISBURSED:

- ▶ Renovation financing loans are fully funded at closing
- ▶ For purchase transactions, the home sellers receive their net proceeds and Real Estate Agents are paid
- ▶ A renovation escrow account is set up to pay the renovation costs
- ▶ For refinance transactions, the homeowner's existing mortgage is paid in full and the renovation funds are placed in an escrow account after a three-day waiting period
- ▶ When a consultant is required, you will either contact a consultant or your renovation specialist to schedule an appointment for each required inspection
- ▶ Funds are released in "draws" from the escrow account as work is completed
- ▶ The HUD consultant must inspect the completed work and submit a request for a draw
- ▶ Request form must be signed by the homeowner, consultant and contractor in order for funds to be disbursed
- ▶ Once the completed request is received by CMG Home Loans, a two party check made payable both to the homeowner and contractor will be released within 5-7 business days

THE FINAL DRAW

When all work is complete, your renovation specialist will provide a letter of completion, which the homeowner must sign and return prior to release of the final funds. The homeowner will receive a final release form that confirms all the specified work is completed and shows how all funds were applied. For certain transactions, the appraiser may be required to re-inspect the property and issue a completion report to CMG Home Loans.
