## *Walkable Middletown Living + Space You Don't Expect*

Welcome to 2 Lombardy Drive, right in the heart of Middletown's Woodmere neighborhood—just steps from historic Main Street, where you'll find charming restaurants, local shops, walking trails, and the community gathering spaces that make this town so special. Schools are just up the street, and everyday life here feels connected, walkable, and easy. Built by Morgan Keller, this beautifully updated 4-level split home offers approximately 2,079 square feet above grade, plus two additional lower levels, providing flexible living space and valuable storage that make the home live larger than expected. Upstairs, the home was originally designed as a three-bedroom layout and has been thoughtfully reconfigured to create a spacious primary suite, a second bedroom, and an updated full bath (2022). The main level features a bright and welcoming living room, a kitchen updated in 2022–2023 with quartz countertops, subway tile backsplash, and newer appliances, a dining area, and a stunning sunroom addition (2019) with its own mini-split system. Surrounded by windows on three sides, it fills with natural light and offers a peaceful place to unwind year-round—and it's the current owners' favorite space in the home. Plantation shutters in the living room and Levolor blinds throughout the rest of the home add both style and function. Just off the kitchen, a portion of the garage has been thoughtfully incorporated into the home and is now a heated and cooled 9x12 pantry/mudroom (2024) with new cabinetry and flooring, while the remaining garage space still allows for parking a smaller vehicle. The first lower level offers a cozy rec room with a fireplace featuring a gas insert (2019), an additional bedroom, a full bath, and walk-out access to the yard—ideal for guests, work-from-home space, or everyday living. The second lower level provides additional storage and a dedicated laundry area with GE washer and dryer (2021), adding to the home's overall functionality. Set on a generous 13,939 square foot corner lot (approximately 0.32 acres), the exterior features a composite deck (2019), a storage shed, and space to enjoy outdoor living. The home has been thoughtfully maintained and improved over time, including a heat pump (2018), roof and gutters (2019), and hot water heater (2023), giving buyers added confidence in the home's major systems. With all-brick construction, quality craftsmanship, and a location that puts you within walking distance to everything Middletown has to offer, this home blends charm, function, and lifestyle in all the right ways.
