SEPTIC TANK INSPECTION FORM

Property Address/Location: 2260 Serenity Place Cumming GA 30041
 Owner: Julius Drozek
 Owner's Address: _____
 Contractor: _____

SYSTEM INFORMATION

Tank Size: 1000 Tank Material: concrete Depth: 3 feet / 1 1/2 feet
 Inspection Port: Yes ☒ No ☐ Original System Drawing Available: Yes ☒ No ☐
 Age of System: 1998 Number of Bedrooms: 3 Number of People in Residence: 2
 Scum: 0 Inches Sludge: 0 Inches Gallons Pumped: 1000
 Fields (circle): ☒ Fields ☐ Dry Wells ☐ Other: _____
 Pumping Frequency Recommended: 3-5 years

ASSESSMENT

- ☐ Failing system: Observed breakout, surfacing or discharge of sewage to the ground surface, storm drain, or water course. Identified by characteristic color and/or odor. Reported plumbing backup or problem not directly observed.
- ☐ Suspect system: Possible failing system, but not readily determined.
- ☒ No problem detected: System is adequately sited and apparently functioning under prevailing conditions without significant limitations.

OBSERVATION

	YES	NO
Overflow to ground surface		
Discharge to storm drainage		
Discharge to watercourse		
Inlet baffle damaged or missing		
Effluent backflow into tank		
Odor in disposal area		
Odor in catch basin		
Heavy green growth		
Laundry discharge		
Saturated leaching area		
Past failure indicated		
Suspicious discharge piping		
Soil drain/sump pump discharge		
Extreme slope (>28%)		
Extensive bedrock outcropping		
Pumping Required for reserve area		
Small available area		

Location sketch (use back of page if necessary)

Indicate North

Provide dimensions to structure

	YES	NO
Shallow groundwater table (< 3')		
Adjacent wetland, watercourse, or ponded water (< 25')		
Adjacent well (< 75')		
Recent repair evident/reported		
Plumbing backup/problem reported		
Frequent pumping reported		
Seasonal use		
Two family		
Recommend further investigation		
Owner advised to have repair made
