

2112 US Hwy 70a
Hillborough, NC 27713

This house was built in 1941 when building codes were a bit different. The ceilings in the home are entirely or mostly below 7ft. Customary for a house of this era where one has all ceilings or nearly all ceilings below 7ft, as long as they are between 5ft to 7ft they can be counted as square footage. - Alex Nickodem, Listing Agent
