Net Metering Program – Began 3/16/2026

	Used	Generated	Excess	Total Banked	Cost
03/16/26 – 04/07/26	60 kWh	260 kWh	200 kWh	217 kWh	\$27.98
04/07/26 – 05/06/26	112	362	250	467	\$17.48
05/06/26 – 06/05/26	120	480	360	827	\$17.48
06/05/26 – 07/05/26	168	471	303	1130	\$17.48

Used: kWh home used during the period

Generated: kWh energy system sends to the grid

Excess: difference between Used and Generated

Total Banked: accumulation of kWh not used but banked for future use – until the March true-up

NOTES:

-March true-up: Net Metering, “true up” banked kWh to 0 kWh in March. Those banked hours are donated to low-income housing. Then the user starts accumulating banked hours (AKA energy credits) again.

-New owner starts at zero at beginning of service with PGE.
