As this is a retrofit project, AAV will not be responsible for any drywall repair or painting resulting from necessary installation work, should it be necessary to cut any drywall. Estimate does not account for any blocking or structural elements within the wall which may require additional labor and/or materials.

The costs outlined above are estimates only. Additional costs may be incurred due to the requirement of additional components, additional labor required or revisions to the original system design. All additional costs are billed on a time and materials basis at the current standard labor rate. Change orders for additional parts and materials will be issued and shall be approved before additional parts are installed or additional materials used.

AAV honors all manufacturer warranties for components. Installation labor is warrantied for 90 days. Outside of 90 days, replacement of equipment under manufacturer warranty will be billed at the current service call labor rate.

At the time of acceptance of this estimate, a valid credit card number must be provided to AAV regardless of payment method. Credit Cards will not be charged without the card holder's authorization. Credit card numbers will be held on file with your authorization. Credit Cards are the preferred method of payment for service calls or invoices under \$7,500.00 total, including final payments on projects where a check deposit has been previously received.

Upon completion of the project outlined above, the original estimated balance due (after all applicable deposits) will be charged to the credit card on file. Additional charges (if applicable) will be submitted for your review and approval prior to debiting the card on file for the additional charges.
